Earnings are listed alphabetically. They conveniently work out to have items from the Daily pay tab on top. The pay statement shows both Current information and YTD information Current is what is included on that pay statement. Day Rate is the earnings paid at a per day rate. Day Rate Time is the “hours” associated with those wages for other calculations in the system. Flat pay is used for additional compensation that is subject to taxes, and has no time associated with it. Health & Welfare is in additional amount paid on specific jobs. The hours applied there are the same hours paid in other methods – Regular time, Day Rate Time, and not counted as “Hours Worked”. Time off is also not counted as Hours Worked.
